How wonderful to have an intelligent analysis about USAs involvement in Korean Peninsula. A real eye opener. Thank God for the Judge. Let's see more of him in place of the extreme right IPA on the Drum in future

Excellent contribution by Justice Michael Pembroke. If only the warmongers in Australia would care to watch, we might have a sensible foreign policy. Don't expect @realDonaldTrump to care for informed analysis.

About the US: They don't see any wrong doing, they don't #recognize any #fault and they don't #understand the #bitterness of "any nation which they #invade and #destroy".. they believe that they are always right, and everyone else is #evil.

Immoral absolutism, really just a knee jerk reaction towards Stalinist ambitions, problem is it was never truly concluded and the NK never acquired knowledge amongst its people since

It was brilliant but to my mind **Michael Pembroke** discussing #NorthKorea was possibly better. What they both have in common was Julia Baird's thoughtful contribution. She really is a national treasure – and deserves more guests of this calibre on #TheDrum
